

CURRICULUM VITAE I Dr. Magdalena Boch

Website: www.magdalenaboch.com **E-mail:** magdalena.boch@univie.ac.at **Bluesky:** [magdalenaboch](#)

Nationality: Austrian

CV last updated: September 2025

Education & professional experience

- Feb 25- **Postdoctoral researcher - Erwin Schroedinger fellow I University of Oxford**
University of Oxford, Wellcome Centre for Integrative Neuroimaging, Cognitive Neuroecology Lab of Prof. Rogier Mars
➔ Investigation of the evolution, structure and function of the carnivoran and primate social temporal lobe by combining structural, diffusion, resting-state and task-based MRI measures
- Sept 24- **L'ORÉAL / UNESCO / Austrian Academy of Science fellow I University of Oxford & University of Vienna**
Feb 25 ➔ Establishing multimodal canine BOLD signal properties to set new analysis standards
- Oct 22- **Post-doctoral researcher I University of Vienna**
August 24 Faculty of Psychology, Department for Cognition, Emotion, and Methods in Psychology
Social Cognitive and Affective Neuroscience (SCAN) Unit of Prof. Claus Lamm
Domestication lab of Ass.-Prof. Friederike Range (University of Veterinary Medicine Vienna)
➔ using fMRI, skin conductance and facial EMG in humans to study the neural and behavioural bases of how we perceive dogs vs. wolves in comparison to other (threatening) species
- 09/2022 **Dr. rer. nat. in Psychology I University of Vienna** (graduated with honors)
Faculty of Psychology, Department for Cognition, Emotion, and Methods in Psychology, SCAN Unit
Faculty of Life Sciences, Department of Behavioural and Cognitive Biology
Supervisor: Prof. Claus Lamm, Co-supervisors: Prof. Ludwig Huber & Ass.-Prof. Isabella Wagner
Thesis: *How dogs and humans perceive and understand each other: a comparative neuroimaging approach*
➔ set up MRI scanning facilities for canine research, established visual BOLD signal properties for the canine brain, and showed novel evidence for convergent evolution of the neural bases of social cognition (agent & action perception) in dogs and humans applying uni- and multivariate neuroimaging analyses
- 2021-2022 **6-month research stay I University of Oxford**
University of Oxford, Wellcome Centre for Integrative Neuroimaging, Cognitive Neuroecology Lab of Assoc.-Prof. Rogier Mars
➔ established international collaboration with comparative MRI methods lab, established methods for analysis of canine resting state fMRI data, currently application of connectivity fingerprint analysis to test of social brain areas in dogs and humans
- 09/2017 **M.Sc. in Psychology I University of Vienna** (graduated with honors)
Track: Social Neuroscience, Cognitive Psychology and Research Methods
Supervisor: Prof. Martin Voracek
Thesis: *The triangular relationship between TV viewing, perception of capital punishment and chance. An endorsed and reviewed preregistered replication and meta-analysis.*
➔ conducted replication study and cumulative meta-analysis using state-of-the-art open science and reproducibility techniques showing that wrong statements about capital punishment in Austria reflected poor study design of original study not actual beliefs of participants
- 2016 **Research & applied neuropsychology internship I Vienna General Hospital, Vienna, Austria**
Department of Paediatrics and Adolescent Medicine, Paediatric Neuro-Oncology sub-unit lead by Dr. Thomas Pletschko
➔ performed literature research on effects of neuropsychological trainings and conducted clinical and neuropsychological diagnostics with preschool children diagnosed with neurofibromatosis type 2 and paediatric neurological cancer survivors
- 09/2015 **B.Sc. in Psychology I University of Vienna**
Supervisors: Dr. Marco Jirasko, Dr. Elisabeth Stefanek
Theses: *The impact of learning strategies on test performance I Homophobic bullying & victimization of queer youth*

→ empirical study investigating impact of learning strategies on test performance, and independent literature review on the impact of bullying and victimization on queer youth

Publications *equal contributions

- 2019 **Boch, M.**, Tran, U. S., & Voracek, M. (2019). Does really one in ten believe capital punishment exists in a contemporary European Community country? An endorsed, prereviewed, preregistered replication study and meta-analysis. *Frontiers in psychology*, 10, 1601. doi:10.3389/fpsyg.2019.01601 • [OSF project site](#)
- 2017 **Boch, M.** & Lamm, C. (2017). The multiple facets of empathy. *Animal Sentience*, 14(14).

Conference proceedings, presentations, and invited talks

- 05/2023 **Boch M.**, The neural bases of social cognition in dogs and humans: a case of convergent evolution? Colloquium talk at Institute des Sciences Cognitives (ISC) Marc Jeannerod, Lyon, France
- 11/2023 **Boch, M.** *Action observation in the dog and human brain and the role of the social temporal lobe*. Talk as part of the symposium “Understanding Empathy and Social Signal Recognition: Insights from Animal and Human Research”. Society for Social Neuroscience (S4SN), virtual meeting.
- 09/2023 **Boch, M.** *Converging minds? Investigating social cognition in domestic dogs and humans*. Invited talk at Comparative Brain Meeting, Paris, France.

- 07/2023 **Boch, M.**, Wagner, I.C., Karl, S., Huber, L., & Lamm, C. Action observation in the dog and human brain and the role of the social temporal lobe. Canine Science Forum, Budapest, Hungary.
- 11/2022 **Boch, M.*** & Guran, A. C.-N.* *Canine Social Cognition - Neuroimaging in dogs and humans*. Institutional talk at Lauri Parkkonen Lab, Aalto University, Espoo, Finland. • online
- 07/2022 **Boch, M.**, Wagner, I.C., Karl, S., Huber, L., & Lamm, C. *Comparing brain areas for social cognition in dogs and humans: A case on convergent evolution?* Talk as part of the symposium “Comparative insights into the development and evolution of the social brain” co-organized by **Magdalena Boch** and Claus Lamm, European Society for Cognitive and Affective Neuroscience (ESCAN) Meeting, Vienna, Austria
- 07/2021 **Boch, M.**, Wagner, I.C., Karl, S., Huber, L., & Lamm, C. *Face, body and object representation in dog and human brain*. Canine Science Forum • virtual
- 04/2021 **Boch, M.**, Wagner, I.C., Karl, S., Huber, L., & Lamm, C. *Face, body and object representation in the human and canine occipito-temporal cortex*. 28th International Conference on Comparative Cognition • online
- 01/2021 **Boch, M.**, *How dogs and humans perceive and understand each other: A comparative neuroimaging approach*. Institutional talk at the Cognitive Neuroecology Lab, University of Oxford, Oxford, United Kingdom • online
- 04/2018 **Boch M.**, Tran, U.S. & Voracek, M. *A State-of the-Art Replication Study: Close, conceptually extended, endorsed, preregistered, pre-reviewed*. Austrian Association of Psychological Science (ÖGP) annual meeting 2018, University of Linz, Austria.

Conference posters

- 2024 **Boch, M.**, Völter, C., Mars, R.B., Huber*, L. & Lamm*, C. Social expectation formation in the dog temporal lobe. Salzburg Mind Brain Annual Meeting (SAMBA), Salzburg, Austria. • **Awarded best poster**
- Boch, M.**, Völter, C., Mars, R.B., Huber*, L. & Lamm*, C. The neural bases of how dogs and humans navigate their social environment. Society for Social Neuroscience (S4SN) conference, Tsukuba, Japan.
- Boch, M.**, Völter, C., Mars, R.B., Huber*, L. & Lamm*, C. The neural bases of how dogs and humans navigate their social environment. Federation of European Neuroscience Societies (FENS) Forum, Vienna, Austria.
- 2023 **Boch, M.**, Range, F., Marshall-Pescini, S., & Lamm, C. Human implicit and explicit emotional responses towards wolves and dogs. Canine Science Forum, Budapest, Hungary.
- 2022 **Boch, M.**, Karl, S., Wagner, I. C., Huber*, L., & Lamm*, C. *Neural correlates of action observation in dogs (Canis familiaris) and humans*. 7th Computational Properties Prefrontal Cortex 2022, Oxford, United Kingdom • [poster](#)
- 2021 **Boch, M.**, Wagner, I.C., Karl, S., Huber*, L., & Lamm*, C. *Face, body and object representations in the dog and human brain*. 43rd Annual Meeting of the Cognitive Science Society • online
- Boch, M.**, Wagner, I.C., Karl, S., Huber, L., & Lamm, C. *Face, body and object representation in canine temporal and occipital cortices*. ESCAN • online
- Boch, M.**, Wagner, I.C., Karl, S., Huber*, L., & Lamm*, C. *Face, body and object representation in the human and canine occipito-temporal cortex*, Society for Social Neuroscience (SfN) Global Connectome • online
- Boch, M.**, Wagner, I.C., Karl, S., Huber*, L., & Lamm*, C. *Face, body and object representation in the human and canine occipito-temporal cortex*, Canine Science Forum (CSF) • online
- 2020 Karl, S., **Boch, M.**, Lamm, C. & Huber. *Who do you prefer? Investigating the human-dog attachment system in pet dogs*, 6th European Student Conference on Behaviour & Cognition, 2019, Padua, Italy.
- 2019 **Boch, M.**, Karl, S., Wagner, I. C., Windischberger, C., Huber L. & Lamm, C. *A rewarding human smile? Neural correlates of canine emotion perception*, OHBM Annual Meeting 2019, Rome, Italy.
- 2018 **Boch, M.**, Karl, S., Wagner, I. C., Huber L. & Lamm, C. *A rewarding Human Smile: An fMRI study investigating canine emotion perception*. Canine Science Forum, 2018, Budapest, Hungary.
- Karl, S., **Boch, M.**, Lamm, C. & Huber L. *Training pet dogs to use functional magnetic resonance imaging (fMRI)*. Canine Science Forum, 2018, Budapest, Hungary.
- Boch, M.**, Karl, S., Huber L. & Lamm, C. *How dogs and humans perceive and understand each other: A canine neuroimaging approach*. Annual Poster Session, Faculty of Psychology, University of Vienna, Austria. • **Awarded best poster**

Academic scholarships & awards

- 2024 **Erwin Schrödinger postdoctoral fellowship**, Austrian Science Fund, project “Evolution of the canine and primate social temporal lobe” (217.950 €)
- L’ORÉAL / Austrian Academy of Sciences / UNESCO fellowship for Women in Science**, project “Setting a new analysis standard for canine comparative social neuroscience” (25.000€)
- Support grant “international communication”** of the Austrian Research Community (Österreichische Forschungsgemeinschaft, ÖFG); supporting participation at Society for Social Neuroscience (S4SN) conference in Tsukuba, Japan (700€)
- 2023 **Support Grant**, Faculty of Psychology, University of Vienna, Austria; supporting the grant application of the project “Evolution of the canine and primate social temporal lobe” (1000€)
- 2022 **PostDoc Award**, Faculty of Psychology, University of Vienna, Austria (4700€)
- 2021 **Marietta Blau Scholarship**, Austria’s Agency for Education and Internationalisation, Austria (9.480€)
- 2019-2023 **Travel grants**, Early Career Researchers-Fond, University of Vienna, Austria (> 1700€)
- 2017-2022 **Scholarships for excellent academic achievements**, University of Vienna, Vienna, Austria (3000€)
- 2018 **Best Poster Award**, Young Scientists Poster Session, Faculty of Psychology, Vienna, Austria

Teaching & Supervision

- since 2020 **Co-supervision of 4 master students**: two graduated with honours & now pursuing a PhD, and two ongoing
- 2017-2022 **Supervision of > 30 interns; supervision and training of 3 research assistants** in the acquisition of MRI data from awake and unrestrained dogs and human participants
- since 2019 **Guest teaching** at undergraduate seminars about comparative and open neuroscience and introduction to academia
- 2019-2022 **Teaching assistant**, seminar: “Theorie & Empirie wissenschaftlichen Arbeitens“ (winter terms); intro to conceptual background & practical steps necessary to perform and interpret fMRI data analysis – lead practical preprocessing & analysis sessions and conceptual sessions focusing on comparative research in humans and non-human animals, open science

Ad-hoc reviewer – Journal of Comparative Neurology, Neuroimage, Brain Structure and Function, Animal Cognition

Organization, involvement & scientific outreach (selection)

- 2024 **“Are animals empathic?”** (Sind Tiere empathisch?) – Guest article in german popular science magazine co-authored with Claus Lamm
- 2023 **Does my dog understand me? – two-part SciComm segment on Austrian kids TV** (“Hallo OKIDOKI”) TV segment about awake dog neuroimaging research in Vienna together with Claus Lamm and 10-year-old Theo
- 2023 **Multilingual OHBM Kids Live Review** – talk at a German school about our research at the Cognitive Neuroecology lab together with other lab members
- 2022 Co-lead in creating a SCAN Unit **lab handbook** to facilitate the start of new members.
- 2022 **Inside the dog brain with Guide Dogs UK**, a public engagement event organized by the **Centre for the Creative Brain, University of Oxford** – talk about my research for the general public
- 2022 Referee for **In-mind magazine** (popular science) to evaluate teaser submissions for a children’s issue on research topics in psychology
- 2022 **Pint of Science Austria** – talk about my research for the general public • [talk recording](#)
- 2020-2022 **“Kinderuni”** (engl. children’s university): half-day workshop for children (7-9 years) with a focus on social cognition (e.g., games to train perspective taking) & the brain (e.g., brain helmets, animals quiz) in 2020-2022
- 2021 **Co-organization of a 2-day workshop** surrounding the topic **“How to become a Post-doc”** targeted at PhD candidates in their final year with international PIs and postdoctoral fellows
- 2018 **“Lange Nacht der Forschung“** (engl. Long night of research): Information booth on psychological research with quizzes (e.g., facts about the brain) and actual data collection (emotion discrimination task)
- 2018 Photo Competition **“My Research in one Picture”**, University of Vienna, Austria. • Top 10 finalist

Skills & Certifications

Data acquisition

- Extensive training and **certification for Siemens Magnetom Skyra MR system**
- Experimental control using Psychopy (**Python**) and Cogent (**Matlab**)

- **Eye-tracking** with Eyelink 1000 Plus, SR Research, Ontario, Canada

Data analysis & coding

- Excellent **Matlab** skills including toolboxes such as **SPM**: univariate, psycho-physiological interaction, representational similarity analysis
- Neuroimaging analysis using **FSL** and **bash** scripting
- **Python** including toolboxes such as nilearn (data visualization) and nipy (human MRI data analysis)
- **R** (multivariate statistics, data visualization)
- **ITK-snap** (manual segmentation and labelling)
- **State-of-the-art open science methods** such as pre-registration, safeguard power analysis, small telescopes approach and (better) p -curve
- Other: **SPSS** (multivariate statistics), Adobe **Illustrator**, **Photoshop** & **Premiere Pro**, **TYPO3** (CMS)

Languages – German (native), English (proficient), French (A-levels)
